NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of the Brown Street Station TIF Fund conform to accounting principles generally accepted in the United States of America as applicable to governments. The following is a summary of the significant polices.

REPORTING ENTITY

The Brown Street Station TIF Fund was established as required by the "Tax Increment Allocation Redevelopment Act" of the State of Illinois. The fund accounts for transactions related to the Tax Increment Redevelopment Project Area established by Municipal ordinance.

The Village intends to repay various expenditures of its redevelopment plan and project and retire any debt issued for the project through the use of property tax incremental revenue and investment and other earnings.

The Brown Street Station TIF Fund is a fund of the Village of Forest Park, Illinois (the Village) and is not intended to present fairly the financial position and results of operations of the Village as a whole. The information contained in this report can also be found in the Village's Annual Financial Report for the year ended April 30, 2023.

BASIS OF PRESENTATION

Fund Financial Statements

The accounts of the Brown Street Station TIF Fund are organized on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues and expenditures, or expenses, as appropriate. Village resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled.

Governmental funds are those through which most governmental functions of the Village are financed. The Village's expendable financial resources (except those accounted for in proprietary funds) are accounted for through governmental funds. The measurement focus is upon determination of changes in financial position, rather than upon net income determination. The following are the Brown Street Station TIF Fund's governmental fund types:

Special Revenue Fund. A Special Revenue Fund is used to account for the proceeds of specific revenue sources (other than those used to finance major capital projects) that are legally restricted or designated to finance particular functions or activities.

Notes to the Financial Statements April 30, 2023

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

MEASUREMENT FOCUS AND BASIS OF ACCOUNTING

Measurement focus is a term used to describe "which" transactions are recorded within the various financial statements. Basis of accounting refers to "when" transactions are recorded regardless of the measurement focus applied.

Measurement Focus

All governmental funds utilize a "current financial resources" measurement focus. Only current financial assets/ deferred outflows and liabilities/deferred inflows are generally included on their balance sheets. Their operating statements present sources and uses of available spendable financial resources during a given period. These funds use fund balance as their measure of available spendable financial resources at the end of the period.

Basis of Accounting

In the fund financial statements, governmental funds are presented on the modified accrual basis of accounting. Under this modified accrual basis of accounting, revenues are recognized when "measurable and available." Measurable means knowing or being able to reasonably estimate the amount. Available means collectible within the current period or within sixty days after year-end. The Brown Street Station TIF Fund recognizes property taxes when they become both measurable and available in accordance with GASB Codification Section P70. A sixty-day availability period is used for revenue recognition for all other governmental fund revenues. Expenditures (including capital outlay) are recorded when the related fund liability is incurred, except for general obligation bond principal and interest which are recognized when due.

ASSETS/DEFERRED OUTFLOWS, LIABILITIES/DEFERRED INFLOWS, AND NET POSITION OR EQUITY

Cash and Investments

Cash and cash equivalents are considered to be cash on hand, demand deposits, and cash with fiscal agent. Investments are generally reported at fair value. Short-term investments are reported at cost, which approximates fair value. For investments, the Village categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

Detail information of the Brown Street Station TIF Fund insured and collateralized, cash and investments of \$4,602,151 is not available. However, total information of the Village is as follows:

The carrying amount of the Village's deposits for governmental and business-type totaled \$24,896,536 and the bank balances totaled \$25,760,912. In addition, the Village has \$7,725,704 invested in the Illinois Funds at yearend, which has an average maturity of less than one year. All account balances at banks were either insured by the Federal Deposit Insurance Corporation (FDIC) for \$250,000 or collateralized with securities of the U.S. government held in the Village's name by the financial institutions acting as the Village's agent.

Notes to the Financial Statements April 30, 2023

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

ASSETS/DEFERRED OUTFLOWS, LIABILITIES/DEFERRED INFLOWS, AND NET POSITION OR EQUITY - Continued

Interfund Receivables, Payables and Activity

Interfund activity is reported as loans, services provided, reimbursements or transfers. Loans are reported as interfund receivables and payables as appropriate and are subject to elimination upon consolidation. Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures/expenses. Reimbursements are when one fund incurs a cost, charges the appropriate benefiting fund and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers. Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances." Interfund eliminations have not been made in the aggregation of this data.

Fund Balance

If there is an expenditure incurred for purposes for which both restricted and unrestricted fund balance is available, the Village will consider restricted fund balance to have been spent before unrestricted fund balance. Further, if there is an expenditure incurred for purposes for which committed, assigned, or unassigned fund balance classifications could be used, then the Village will consider committed fund balance to be spent before assigned fund balance.

PROPERTY TAXES

Property taxes for 2022 attach as an enforceable lien on January 1, on property values assessed as of the same date. Taxes are levied by December of the subsequent fiscal year (by passage of a Tax Levy Ordinance). Tax bills are prepared by the County and are payable in two installments, on or about March 1 and August 1 during the following year. The County collects such taxes and remits them periodically. In the final tax extension, the County Clerk provides for an allowance for loss and cost of 3% for all tax levying funds except debt service, which has a 5% factor. The property tax revenue in the financial statements represents approximately one-half of the 2021 and one-half of the 2022 property tax levies.
