ADMINISTRATOR'S REPORT

COMMISSIONER REPORTS

ADJOURNMENT

THE REGULAR MEETING OF THE COUNCIL OF THE VILLAGE OF FOREST PARK, COOK COUNTY, ILLINOIS HELD ON MONDAY EVENING, JUNE 10, 2024

Mayor Hoskins led all assembled in the Pledge of Allegiance at 7:00 p.m.

ROLL CALL

Commissioners Maxham, Nero, Melin-Rogovin, Voogd and Mayor Hoskins answered the Roll Call.

APPROVAL OF THE MINUTES OF PREVIOUS MEETINGS

It was moved by Commissioner Melin-Rogovin and seconded by Commissioner Nero that the minutes from the May 28, 2024, Regular meeting of the Council be approved.

ROLL CALL:

AYES: Commissioners Nero, Melin-Rogovin, Voogd and Mayor Hoskins

NAYES: None

ABSTAIN: Commissioner Maxham

The motion carried.

PUBLIC COMMENT

Ms. Bernadette McLain and Mr. Gerry Santora both spoke in opposition of approval of the digital billboard being proposed by the CTA. In addition, both speakers voiced their concern about the confrontational behavior of the people and cars that are traveling through Forest Park during funerals. Mr. Santora suggested that the funeral homes should have a requirement to notify the villages where they are traveling.

COMMUNICATIONS:

None

DEPARTMENT REPORTS:

None

APPROVAL OF BILLS:

It was moved by Commissioner Maxham and seconded by Commissioner Nero that the Resolution for the payment of bills be adopted. The bills totaled \$450,715.72

R-48-24 APPROVAL OF BILLS IN THE AMOUNT OF \$450,715.72 APPROVED

ROLL CALL:

AYES: Commissioners Maxham, Nero, Melin-Rogovin,

Voogd and Mayor Hoskins

NAYES: None

APPROVED

ROLL CALL:

AYES: Commissioners Maxham, Nero, Melin-Rogovin,

Voogd and Mayor Hoskins

NAYES: None

ABSENT: Commissioner Maxham The motion carried unanimously.

ADMINISTRATOR'S REPORT:

Administrator Entler reported the following:

- There will be some painting work done on Madison Street later this week
- The federal government mandated that the village send a letter to notify all property owners with lead water service lines of their existence.
- Other letters are being sent to those property owners where the village is in the process of replacing the lead water service lines. The engineers of the project need the help of the residents in order to locate the lines on each property.
- The Chamber of Commerce lunch meeting will be held at Village Hall tomorrow. Police staff will be discussing safety and security for businesses.
- The Park District is going to start construction on the park at Washington and Circle in the very near future.
- Mayor Hoskins and Representative La Shawn Ford will be holding a town hall meeting on Wednesday, June 12, 2024, at 7:00 at the Community Center. The meeting will be open to the public and there will be discussion about the activity, rights and protections of funeral processions and possible amendments to these protections.

COMMISSIONER'S REPORTS:

Commissioner Nero reported the following:

- Starbucks is currently closed for upgrades, expected to take about a month. The grand reopening is planned for the first or second week in July.
- The Parkway Dispensary is expected to open in the next two weeks.
- The application for a L.E.D. billboard is a no-go and has been withdrawn by the petitioner.

Commissioner Voogd reported she attended a C-4 roundtable discussion on June 5th, in Bellwood. The subject was Green Landscape Technology or electric powered landscaping equipment. The commissioner enjoyed the collaboration between the villages and contractors present. Commissioner Voogd expressed her gratitute to all those who worked on and participated in the Juneteenth flag raising event.

Mayor Hoskins reported that in addition to Representative La Shawn Ford, there will be other legislators and funeral home operators present to discuss and provide input on funeral processions traveling through towns near cemeteries. The mayor urged the public to attend on Wednesday, June 12th at 7:00.

ADJOURNMENT

There being no further business to be addressed, Commissioner Nero moved and Commissioner Maxham seconded to adjourn the meeting. The motion carried unanimously.

Mayor Hoskins declared the meeting adjourned at 7:17 P.M.

Respectfully submitted,

RESOLUTION No.

BE IT RESOLVED by the Council of the Village of Forest Park, Cook County, Illinois, that we dispense with the reading of the individual bills inasmuch as each department head has approved and signed bills in the following aggregate amount for their respective departments.

RESOLUTION NO. R-_____-24

A RESOLUTION APPROVING THE SPECIFICATIONS AND AUTHORIZING THE ADVERTISING OF BIDS FOR THE VILLAGE OF FOREST PARK 2024 SIDEWALK IMPROVEMENT PROJECT

WHEREAS, the Village of Forest Park ("Village") has undertaken to develop plans and specifications for the 2024 Sidewalk Improvement Project (the "Project") in the Village; and

WHEREAS, the Village desires to approve certain specifications and advertisement for bids for the Project.

BE IT RESOLVED, by the Mayor and Village Council of the Village of Forest Park, Cook County, Illinois, as follows:

<u>Section 1</u>. Finding of the Corporate Authorities

In the opinion of a majority of the corporate authorities of the Village, it is advisable, necessary and in the public interest that the Village approve the specifications for, advertise for bids and solicit bids for the Project.

Section 2. Advertisement for Bids

The Village Clerk and Village Engineer, Christopher B. Burke Engineering, Ltd., are hereby authorized and directed to cause an advertisement and to solicit bids, pursuant to the public bid process and in substantially the form of the Local Public Agency Formal Contract Proposal for the Project, attached hereto as Exhibit "A" and made a part hereof.

Section 3. Effective Date

This Resolution shall be in full force and effect from and after its passage and approval in the manner provided by law.

ADOPTED by the Council of the V	illage of Forest Park, Cook County, Illinois this 24
day of June, 2024.	
AYES:	
NAYS:	
ABSENT:	
APPROVED by me this 24 th day of	June, 2024.
	Rory E. Hoskins, Mayor
ATTESTED and filed in my office,	
and published in pamphlet form	
this day of June, 2024.	
Vanessa Belmonte, Village Clerk

CONTRACTOR CERTIFICATIONS

The certifications hereinafter made by the bidder are each a material representation of fact upon which reliance is placed should the Department enter into the contract with the bidder.

- 1. **Debt Delinquency.** The bidder or contractor or subcontractor, respectively, certifies that it is not delinquent in the payment of any tax administered by the Department of Revenue unless the individual or other entity is contesting, in accordance with the procedure established by the appropriate Revenue Act, its liability for the tax or the amount of the tax. Making a false statement voids the contract and allows the Department to recover all amounts paid to the individual or entity under the contract in a civil action.
- 2. **Bid-Rigging or Bid Rotating**. The bidder or contractor or subcontractor, respectively, certifies that it is not barred from contracting with the Department by reason of a violation of either 720 ILCS 5/33E-3 or 720 ILCS 5/33E-4.

A violation of section 33E-3 would be represented by a conviction of the crime of bid-rigging which, in addition to Class 3 felony sentencing, provides that any person convicted of this offense, or any similar offense of any state or the United States which contains the same elements as this offense shall be barred for 5 years from the date of conviction from contracting with any unit of State or local government. No corporation shall be barred from contracting with any unit of State or local government as a result of a conviction under this Section of any employee or agent of such corporation if the employee so convicted is no longer employed by the corporation: (1) it has been finally adjudicated not guilty or (2) if it demonstrates to the governmental entity with which it seeks to contract that entity finds that the commission of the offense was neither authorized, requested, commanded, nor performed by a director, officer or a high managerial agent on behalf of the corporation.

A violation of Section 33E-4 would be represented by a conviction of the crime of bid-rotating which, in addition to Class 2 felony sentencing, provides that any person convicted of this offense or any similar offense of any state or the United States which contains the same elements as this offense shall be permanently barred from contracting with any unit of State of Local government. No corporation shall be barred from contracting with any unit of State or Local government as a result of a conviction under this Section of any employee or agent of such corporation if the employee so convicted is no longer employed by the corporation and: (1) it has been finally adjudicated not guilty or (2) if it demonstrates to the governmental entity with which it seeks to contract and that entity finds that the commission of the offense was neither authorized, requested, commanded, nor performed by a director, officer or a high managerial agent on behalf of the corporation.

- 3. **Bribery.** The bidder or contractor or subcontractor, respectively, certifies that, it has not been convicted of bribery or attempting to bribe an officer or employee of the State of Illinois or any unit of local government, nor has the firm made an admission of guilt of such conduct which is a matter or record, nor has an official, agent, or employee of the firm committed bribery or attempted bribery on behalf of the firm and pursuant to the direction or authorization of a responsible official of the firm.
- 4. Interim Suspension or Suspension. The bidder or contractor or subcontractor, respectively, certifies that it is not currently under a suspension as defined in Subpart I of Title 44 Subtitle A Chapter III Part 6 of the Illinois Administrative code. Furthermore, if suspended prior to completion of this work, the contract or contracts executed for the completion of this work may be canceled.

SPECIAL PROVISIONS

The following Special Provisions supplement the "Standard Specifications for Road and Bridge Construction", adopted January 1, 2022 (hereinafter referred to as the "Standard Specifications"); the latest edition of the "Illinois Manual on Uniform Traffic Control Devices for Streets and Highways" in effect on the date of invitation for bids; and the "Supplemental Specifications and Recurring Special Provisions", adopted January 1, 2024, indicated on the Check Sheet included herein; all of which apply to and govern the construction of the 2024 Sidewalk Improvement Project for the Village of Forest Park, Illinois, and in case of conflict with any part, or parts, of said specifications, the said special provisions shall take precedence and shall govern.

DESCRIPTION OF IMPROVEMENT

The work to be performed consists of removing existing PCC sidewalks and installing new PCC sidewalks and carriage walks.

LOCATIONS OF IMPROVEMENT

See location schedule.

RESPONSIBLE BIDDER REQUIREMENTS

The Village of Forest Park has responsible bidder requirements per the Village Code.

Bidders shall submit with their proposal the following documents:

- a. Documents evidencing compliance with all applicable laws and ordinances prerequisite to doing business in Illinois.
- b. A valid federal employer tax identification number, or, if an individual, a valid social security number.
- c. A statement of compliance with the equal opportunity employer provisions of Section 2000e of Chapter 21, Title 42 of the United States Code and Federal Executive Order Number 11246, as amended, by Executive Order 11375 (known as the Equal Opportunity Employer Provision).
- d. Certificates of insurance indicating minimum insurance coverages as set forth in a bid specification, including general liability workers' compensation, completed operations, automobile, hazardous occupations and products liability.

- Evidence of a written sexual harassment policy in compliance with the provisions of the Illinois Human Rights Act.
- f. A statement of compliance with the provisions of the Illinois Prevailing Wage Act.
- g. Evidence of compliance with the Substance Abuse Prevention on Public Works Projects Act.
- h. Evidence of relevant experience that indicates the necessary capacity to perform the project and adequate references verifying the quality of work performed.
- i. For Village public works construction projects (construction of new Village facilities, renovation of existing Village facilities or Village road and/or utility construction projects) over fifty thousand dollars (\$50,000.00), evidence of participation in apprentice and training programs applicable to the work to be performed on the project which are approved by and registered with the United States Department of Labor Office of Apprenticeship and Training or are reasonably equivalent to such programs.
- j. For Village construction projects (construction of new Village facilities, renovation of existing facilities or Village road and/or utility construction projects), responsible bidders must demonstrate a good faith effort toward providing equal employment opportunities for persons to work as craftpersons, laborers, workers or mechanics consistent with the racial, ethnic and gender demographics of the labor force available in the Illinois Department of Employment Security Chicago-Naperville-Joliet Metropolitan Division which consists of Cook DeKalb, DuPage, Grundy, Kane, Kendall, McHenry and Will Counties.

Village of Forest Park Forest Park 2024 Sidewalk Improvement Project CBBEL Project No. 000023.00124 Page 4

INSURANCE REQUIREMENTS

The Contractor shall follow Section 107 of the Illinois Department of Transportation Standard Specifications for Road and Bridge Construction. The insurance shall also name the Village of Forest Park and Christopher B. Burke Engineering, Ltd. as additional insured.

AWARD OR REJECTION

The bidding requirements and conditions for contract award or rejection will follow IDOT-Bureau of Local Roads Check Sheet # 6, contained herein, with the following additions:

"The Village reserves the right to reduce the scope of work based upon Village budget constraints, without penalty or additional compensation to the contractor."

CLEAN CONSTRUCTION DEBRIS DISPOSAL REQUIREMENTS

All Removal or Excavation items being disposed of at an uncontaminated soil fill operation or Clean Construction and Demolition Debris (CCDD) fill site shall meet the requirements of Public Act 96-1416. All costs associated with meeting these requirements shall be included in the unit price costs for the associated Removal or Excavation items in the Contract. These costs shall include but are not limited to all required testing, lab analysis, certification by a licensed Professional Engineer, and State and Local tipping fees.

MAINTENANCE OF ROADWAYS

Effective: September 30, 1985 Revised: November 1, 1996

Beginning on the date that work begins on this project, the Contractor shall assume responsibility for normal maintenance of all existing roadways within the limits of the improvement. This normal maintenance shall include all repair work deemed necessary by the Engineer, but shall not include snow removal operations. Traffic control and protection for maintenance of roadways will be provided by the Contractor as required by the Engineer.

DUST CONTROL

The Contractor shall take appropriate measures to control dust at all times along the entire project by means such as mechanical sweeper, water truck, or as directed by the Engineer. All concrete saw cutting shall utilize a "wet cutting method" and shall be thoroughly cleaned at the end of each working day. This work shall be included in the cost of the contract.

Village of Forest Park Forest Park 2024 Sidewalk Improvement Project CBBEL Project No. 000023.00124 Page 5

PORTLAND CEMENT CONCRETE SIDEWALK 5 INCH, SPECIAL

In addition to the requirements of Section 424 of the "Standard Specifications for Road and Bridge Construction" the Contractor shall place embankment or excavate in accordance with Sections 202 and 205 of the Standard Specifications in order to match existing grade or as directed by the engineer. The Contractor shall place a 2" compacted aggregate base, Type B in accordance with Section 351 of the Standard Specifications. This work will be paid for at the contract unit price per square foot for PORTLAND CEMENT CONCRETE SIDEWALK 5 INCH, SPECIAL.

Where a sidewalk intersects a driveway, the thickness of the concrete shall be increased to 7 inches and wire reinforcement mesh shall be installed. The increase in concrete thickness and wire reinforcement mesh shall be considered incidental to PORTLAND CEMENT CONCRETE SIDEWALK 5 INCH, SPECIAL. There will be no additional compensation for this work.

Embankment and/or excavation and the 2" aggregate base, Type B shall not be measured or paid for separately, but shall be included in the contract unit price per square foot for PORTLAND CEMENT CONCRETE SIDEWALK 5 INCH, SPECIAL.

Disturbed parkway shall be restored with 4" Topsoil and Sodding and shall be included in this pay item.

DETECTABLE WARNINGS FOR PEDESTRIAN CROSSINGS, FURNISH AND INSTALL

Description

 This work shall consist of furnishing and installing prefabricated detectable warning panels from approved material suppliers in the new Portland Cement Concrete (PCC) sidewalk at locations as directed by the OWNER. The detectable warning panels shall be the "cast-in-place" model.

Materials

- 2. Approved material suppliers are as follows:
 - a. Armor-Tile Tactile Systems. www.armor-tile.com
 - b. ADA Solutions. www.adatile.com (Composite Panel Paver System)
 - c. Detectile Corporation. www.detectile.com
 - d. Or approved equal.

The Contractor shall be responsible for furnishing the specified number of detectable warning panels from the approved list of material suppliers. Prior to purchasing the detectable warnings, the Contractor shall submit for review and approval by the OWNER the proposed product information consisting of the following:

- a. Manufacturer's certification stating the product is fully compliant with the
- b. Manufacturer's five year warranty.
- c. Manufacturer's specifications including the required materials, equipment, and installation procedures. Products that are colored shall be colored their entire thickness.
- d. Color chart (color to be determined by the OWNER).
- e. Sample Product Panel (24"x48").

The detectable warning panels to be purchased shall be 24"x48". Any damaged panel shall be rejected and shall be replaced at no additional expense to the Owner.

Construction Requirements

3. The Contractor shall install the panels in accordance with the manufacturer's recommendations and details. The panels shall be installed during the construction of the new PCC sidewalk and shall be an integral part of the walking surface. The top of the panel shall be flush with the surface of the sidewalk and only the actual domes shall project above the walking surface.

Village of Forest Park Forest Park 2024 Sidewalk Improvement Project CBBEL Project No. 000023.00124 Page 7

The detectable warning panels shall be installed at curb ramps, medians and pedestrian refuge islands, at-grade railroad crossings, transit platform edges,

and other locations where pedestrians are required to cross a hazardous vehicular way. Detectable warnings shall also be installed at alleys and commercial entrances when permanent traffic control devices are present.

Method of Measurement and Basis of Payment

4. This work will be measured and paid for at the contract unit price per each for DETECTABLE WARNINGS FOR PEDESTRIAN CROSSINGS, FURNISH AND INSTALL which work includes furnishing and installing the detectable warning per the manufacturer's recommendations and as described herein.

COMBINATION CONCRETE CURB AND GUTTER REMOVAL AND REPLACEMENT

Description. This work shall consist of the removal of the existing curb and gutter, the construction of new concrete curb and gutter including all necessary excavation, embankment and subbase granular material, and parkway restoration with topsoil and sodding as shown in the detail on the plans and in accordance with Sections 606, 202, 205, 211, 252, and 311 of the Standard

Specifications, Plan Sheet 19 (IDOT BD-24) and as specified herein.

Construction Requirements. In addition to the requirements of Article 606.06 of the Standard Specifications the Contractor shall excavate all material necessary to build the proposed curb and gutter and proposed subbase in accordance with Section 202 of the Standard Specifications. The proposed subbase shall be subbase granular material, Type B of the thickness shown in the typical section in accordance with Section 311 of the Standard Specifications. Backfill behind the proposed back of curb shall be in accordance with Section 205 of the Standard Specifications. Any existing pavement removed adjacent to the new curb and gutter shall be replaced with Class SI concrete.

Expansion joints shall be placed at a maximum spacing of 60 feet. Contraction joints shall be placed at a maximum spacing of 15 feet. Expansion joints shall be placed 5' from each side of structures.

Proposed concrete curb and gutter shall be transitioned to existing curb and gutter over a length of 5 feet. This work shall be paid for at the contract unit price per foot for COMBINATION CONCRETE CURB AND GUTTER REMOVAL AND REPLACEMENT.

The following items are to be considered included in the cost to the curb and gutter removal and replacement.

- Sawcutting pavement 6" in front of curb to allow for front form boards.
- Filling gap with concrete between existing pavement and proposed Curb and Gutter Removal and Replacement in accordance with State Standard 606001 if in grind and overlay area.
- Excavation to 12" behind the proposed Back of Curb.
- Suitable backfill materials, CA-6 if beneath driveway or sidewalk.
- Proposed ¾" preformed expansion joint at concrete sidewalks or driveways.

Village of Forest Park Forest Park 2024 Sidewalk Improvement Project CBBEL Project No. 000023.00124 Page 9

- 4" earth excavation and replacement with Subbase Granular Material, Type B 4".
- Longitudinal bars, if encountered in the existing curb or curb and gutter, are not to be replaced. Cutting and removing longitudinal bars shall be included.
- Drill and grout 2 #6 epoxy coated dowel bars into the existing curb and gutter.
- Sawcutting of the curb as marked by the resident engineer.
- Disturbed parkway shall be restored with 4" Topsoil and Sodding and shall be included in this pay item.

606.13-

Method of Measurement and Basis of Payment. Combination concrete curb and gutter and all excavation, subbase material, Class SI concrete, backfill, topsoil and sodding necessary to construct the work as shown on the plans and as specified herein shall be measured and paid for at the contract unit price per foot for COMBINATION CONCRETE CURB AND GUTTER REMOVAL AND REPLACEMENT.

Village of Forest Park Forest Park 2024 Sidewalk Improvement Project CBBEL Project No. 000023.00124 Page 10

TRAFFIC CONTROL AND PROTECTION

Construction operations shall be conducted in a manner such that streets will be open to emergency traffic and accessible as required to local traffic in accordance with the applicable portions of Article 107.14 of the Standard Specifications. Removal and replacement of driveways shall be planned so as to cause a minimum of inconvenience to the abutting property owners. Temporary traffic control devices shall be furnished and maintained as required and shall conform to the applicable portions of Section 701 of the Standard Specifications and the following highway standards:

• Standard 701801-03

The work shall be accomplished such that the streets will be left open to local traffic at the end of each working day. It will also be necessary to provide advance notice to residents, police, fire, school districts and trash haulers when access to any street will be temporarily closed or limited.

During construction, the Contractor shall provide lighted barricades, flagmen and other temporary protection where necessary for public safety at all times. Should traffic protection be determined to be inadequate by the Engineer or the Municipality, the Municipality will take the necessary action to protect the public, and the cost of this work will be charged to the Contractor.

Temporary signs shall be erected to notify pedestrians: "SIDEWALK CLOSED USE OTHER SIDE". The signs shall be placed at both ends of the block or at the nearest accessible crossing, or as directed by the engineer.

Method of Measurement and Basis of Payment

This work will not be paid for separately but will be considered incidental to the contract.

AGGREGATE FOR TEMPORARY ACCESS

Description

This work shall consist of the construction and maintenance of an aggregate base course for maintaining access to intersecting streets and driveways as specified in Article 107.09 of the STANDARD SPECIFICATIONS. The CONTRACTOR shall provide access for all emergency vehicles and school buses, and to all abutting properties at all times during construction.

Construction Requirements

The CONTRACTOR shall maintain ingress and egress to all abutting properties during construction operations. Temporary driveways and entrances shall be constructed of aggregate in accordance with the applicable portions of Section 351 of the STANDARD SPECIFICATIONS and to the dimensions determined by the ENGINEER. The coarse aggregate shall be crushed stone or crushed gravel, gradation CA-6.

Maintenance shall consist of placing and compacting additional aggregate of the same type and gradation as the base aggregate.

After these driveway aprons have served their purpose, the suitable aggregate shall be removed, and, at the direction and approval of the ENGINEER, utilized for other purposes, such as granular subbase, aggregate base course, and embankment construction or other driveway aprons or otherwise disposed of as specified in Article 202.03 of the STANDARD SPECIFICATIONS.

Method of Measurement and Basis of Payment

This work will not be paid for separately but will be considered incidental to the contract.

RESOLUTION NO. R- -24

A RESOLUTION APPROVING THE SPECIFICATIONS AND AUTHORIZING THE ADVERTISING OF BIDS FOR THE VILLAGE OF FOREST PARK ROOSEVELT ROAD ISLANDS LANDSCAPE REMOVAL PROJECT

WHEREAS, the Village of Forest Park ("Village") has undertaken to develop plans and specifications for the Roosevelt Road Islands Landscape Removal Project (the "Project") in the Village; and

WHEREAS, the Village desires to approve certain, guidelines, plans, specifications and advertisement for bids for the Project.

BE IT RESOLVED, by the Mayor and Village Council of the Village of Forest Park, Cook County, Illinois, as follows:

Section 1. Finding of the Corporate Authorities

In the opinion of a majority of the corporate authorities of the Village, it is advisable, necessary and in the public interest that the Village approve the specifications for, advertise for bids and solicit bids for the Project.

Section 2. Advertisement for Bids

The Village Clerk and Village Engineer, Christopher B. Burke Engineering, Ltd., are hereby authorized and directed to cause an advertisement and to solicit bids, pursuant to the public bid process and in substantially the form of the Local Public Agency Formal Contract Proposal for the Project, attached hereto as Exhibit "A" and made a part hereof.

Section 3. Effective Date

This Resolution shall be in full force and effect from and after its passage and approval in the manner provided by law.

ADOPTED by the Council of the Vi	illage of Forest Park, Cook County, Illinois this 24
day of June, 2024.	
AYES:	
NAYS:	
ABSENT:	
APPROVED by me this 24 th day of .	June, 2024.

NOTICE TO BIDDERS

County	Cook
Local Public Agency	Forest Park
Section Number	NA
Route	Roosevelt Road

Sealed proposals for the improvement described below will be received virtually until 10:00 AM on July 10th on Quest CDN. Sealed proposals will be opened and read virtually at 10:00 AM on July 10th, on Zoom. Link to the meeting can be found on Quest CDN or below.

	DESCRIPTION OF WORK				
	me Roosevelt Road Islands Landscape Removal Length: 370 feet (0.07 miles) cation 7635, 7623, and 7410 Roosevelt Road, Forest Park Illinois				
Pro	oposed Improvement Removal of trees, shrubs, soil, and curb on all three islands and replacement with granular				
sul	bbase, concrete landing slabs and brick pavers				
1.	Plans and proposal forms can be downloaded from http://cbbel.com/bidding-info/ or at www.questcdn.com				
	Under Login using Quest CDN #8954577 for a non-refundable charge of \$30.00. A QuestCDN login will be required. Contact QuestCDN at 952-233-1632 or info@questcdn.com for assistance in membership registration and downloading this digital project information. A hard copy of the plans may also be viewed at CBBEL's offices located at 9575 W. Higgins Road, Suite 600, Rosemont, IL 60018. Contractors must purchase bid documents and be shown on the Bidder's Planholder list in order to bid. Bids received from contractors who are not in the Bidder's Planholder List will be rejected				
2.	☐ Prequalification				
	If checked, the 2 low bidders must file within 24 hours after the letting an "Affidavit of Availability" (Form BC 57), in duplicate, showing all uncompleted contracts awarded to them and all low bids pending award for Federal, State, County, Municipal and private work. One original shall be filed with the Awarding Authority and one original with the IDOT District Office.				
3.	The Awarding Authority reserves the right to waive technicalities and to reject any or all proposals as provided in BLRS Special Provision for Bidding Requirements and Conditions for Contract Proposals.				
4.	The following BLR Forms shall be returned by the bidder to the Awarding Authority: a. BLR 12200: Local Public Agency Formal Contract Proposal b. BLR 12200a Schedule of Prices c. BLR 12230: Proposal Bid Bond (if applicable) d. BLR 12325: Apprenticeship or Training Program Certification (do not use for federally funded projects) e. BLR 12326: Affidavit of Illinois Business Office				

Printed 1/29/2024 Page 2 of 7 BLR 12200 (01/08/14)

- 5. The quantities appearing in the bid schedule are approximate and are prepared for the comparison of bids. Payment to the Contractor will be made only for the actual quantities of work performed and accepted or materials furnished according to the contract. The scheduled quantities of work to be done and materials to be furnished may be increased, decreased or omitted as hereinafter provided.
- 6. Submission of a bid shall be conclusive assurance and warranty the bidder has examined the plans and understands all requirements for the performance of work. The bidder will be responsible for all errors in the proposal resulting from failure or neglect to conduct an in depth examination. The Awarding Authority will, in no case be responsible for any costs, expenses, losses or changes in anticipated profits resulting from such failure or neglect of the bidder.
- 7. The bidder shall take no advantage of any error or omission in the proposal and advertised contract.
- 8. If a special envelope is supplied by the Awarding Authority, each proposal should be submitted in that envelope furnished by the Awarding Agency and the blank spaces on the envelope shall be filled in correctly to clearly indicate its contents. When an envelope other than the special one furnished by the Awarding Authority is used, it shall be marked to clearly indicate its contents. When sent by mail, the sealed proposal shall be addressed to the Awarding Authority at the address and in care of the official in whose office the bids are to be received. All proposals shall be filed prior to the time and at the place specified in the Notice to Bidders. Proposals received after the time specified will be returned to the bidder unopened.
- 9. Permission will be given to a bidder to withdraw a proposal if the bidder makes the request in writing or in person before the time for opening proposals.

CONTRACTOR CERTIFICATIONS

County	COOK
Local Public Agency	FOREST PARK
Section Number	NA
Route	Roosevelt Road

The certifications hereinafter made by the bidder are each a material representation of fact upon which reliance is placed should the Department enter into the contract with the bidder.

- 1. Debt Deliquency. The bidder or contractor or subcontractor, respectively, certifies that it is not delinquent in the payment of any tax administered by the Department of Revenue unless the individual or other entity is contesting, in accordance with the procedures established by the appropriate revenue Act, its liability for the tax or the amount of tax. Making a false statement voids the contract and allows the Department to recover all amounts paid to the individual or entity under the contract in a civil action.
- 2. **Bid-Rigging or Bid Rotating.** The bidder or contractor or subcontractor, respectively, certifies that it is not barred from contracting with the Department by reason of a violation of either 720 ILCS 5/33E-3 or 720 ILCS 5/33E-4.

A violation of Section 33E-3 would be represented by a conviction of the crime of bid-rigging which, in addition to Class 3 felony sentencing, provides that any person convicted of this offense or any similar offense of any state or the United States which contains the same elements as this offense shall be barred for 5 years from the date of conviction from contracting with any unit of State or local government. No corporation shall be barred from contracting with any unit of State or local government as a result of a conviction under this Section of any employee or agent of such corporation if the employee so convicted is no longer employed by the corporation and: (1) it has been finally adjudicated not guilty or (2) if it demonstrates to the governmental entity with which it seeks to contract and that entity finds that the commission of the offense was neither authorized, requested, commanded, nor performed by a director, officer or a high managerial agent in behalf of the corporation.

A violation of Section 33E-4 would be represented by a conviction of the crime of bid-rotating which, in addition to Class 2 felony sentencing, provides that any person convicted of this offense or any similar offense of any state or the United States which contains the same elements as this offense shall be permanently barred from contracting with any unit of State or local government. No corporation shall be barred from contracting with any unit of State or local government as a result of a conviction under this Section of any employee or agent of such corporation if the employee so convicted is no longer employed by the corporation and: (1) it has been finally adjudicated not guilty or (2) if it demonstrates to the governmental entity with which it seeks to contract and that entity finds that the commission of the offense was neither authorized, requested, commanded, nor performed by a director, officer or a high managerial agent in behalf of the corporation.

- 3. **Bribery.** The bidder or contractor or subcontractor, respectively, certifies that it has not been convicted of bribery or attempting to bribe an officer or employee of the State of Illinois or any unit of local government, nor has the firm made an admission of guilt of such conduct which is a matter of record, nor has an official, agent, or employee of the firm committed bribery or attempted bribery on behalf of the firm and pursuant to the direction or authorization of a responsible official of the firm.
- 4. Interim Suspension or Suspension. The bidder or contractor or subcontractor, respectively, certifies that it is not currently under a suspension as defined in Subpart I of Title 44 Subtitle A Chapter III Part 6 of the Illinois Administrative Code. Furthermore, if suspended prior to completion of this work, the contract or contracts executed for the completion of this work may be cancelled.

<u>TAB 1</u>

SPECIAL PROVISIONS

SPECIAL PROVISIONS

The following Special Provisions supplement the "Standard Specifications for Road and Bridge Construction", adopted January 1, 2022 (hereinafter referred to as the "Standard Specifications"); the latest edition of the "Illinois Manual on Uniform Traffic Control Devices for Streets and Highways" in effect on the date of invitation for bids; and the "Supplemental Specifications and Recurring Special Provisions" indicated on the Check Sheet included herein; all of which apply to and govern the construction of:

Village of Forest Park Roosevelt Road Islands Landscaping Removal for the Village of Forest Park, Illinois.

These special provisions included herein apply to and govern the proposed improvement designated as **Roosevelt Road Islands Landscaping Removal** and in case of conflict with any part or parts of said specifications, said special provisions shall take precedent and shall govern.

Location of Improvement

This improvement is located at **7635**, **7623**, **7410**, and **7239** Roosevelt Road, in the Village of Forest Park, Cook County, Illinois.

Description of Improvement

The proposed work includes removal of the existing brick pavers, raised curb, trees, shrubs, and soil, and installation of subbase, concrete landing slabs, and brick pavers. Any electrical and irrigation components within the landscaped area must also be removed.

COMPLETION DATE

The project shall be completed by October 15th, 2024.

DEFINITION OF TERMS

In addition to the definitions included in Section 101 of the "Standard Specifications for Road and Bridge Construction", the following should be added:

Engineer – shall be the firm of Christopher B. Burke Engineering, Ltd. as Engineer employed by the Owner.

Village – shall be the Village of Forest Park.

Owner - shall be the Village of Forest Park.

Municipality - shall be the Village of Forest Park.

Department – shall be the Village of Forest Park.

INSURANCE REQUIREMENTS

The Contractor shall follow Section 107 of the Illinois Department of Transportation Standard Specifications for Road and Bridge Construction. The insurance shall also name the Village of Forest Park and Christopher B. Burke Engineering, Ltd. as additional insured.

MAINTENANCE OF EXISTING UTILITIES

The Contractor shall be responsible for interference with or damage to any existing utilities, such as water mains, sewers, gas mains, cable, conduit, etc., and shall repair or replace same at his own expense and with the least possible delay. The Contractor shall give prior notification to the utility companies of his intention to begin work. He shall also call J.U.L.I.E. at 1-800-892-0123 and the Village to mark the location of underground utilities.

UTILITY POLES AND UTILITY VAULTS

The Contractor shall coordinate with the utility company so the project can be completed with no additional working days allowed for the coordination. This coordination shall be considered incidental to the Contract.

IDOT PERMIT

The successful low bidder shall be required to complete the enclosed IDOT Permit forms and provide a Highway Permit Bond to IDOT in the amount of \$25,000. These forms must be completed and accepted by IDOT before work can commence.

RESPONSIBLE BIDDER REQUIREMENTS

The Village of Forest Park has responsible bidder requirements per the Village Code.

Bidders shall submit with their proposal the following documents:

- a. Documents evidencing compliance with all applicable laws and ordinances prerequisite to doing business in Illinois.
- b. A valid federal employer tax identification number, or, if an individual, a valid social security number.
- c. A statement of compliance with the equal opportunity employer provisions of Section 2000e of Chapter 21, Title 42 of the United States Code and Federal Executive Order Number 11246, as amended, by Executive Order 11375 (known as the Equal Opportunity Employer Provision).
- d. Certificates of insurance indicating minimum insurance coverages as set forth in a bid specification, including general liability workers' compensation, completed operations, automobile, hazardous occupations and products liability.
- e. Evidence of a written sexual harassment policy in compliance with the provisions of the Illinois Human Rights Act.
- f. A statement of compliance with the provisions of the Illinois Prevailing Wage Act.
- g. Evidence of compliance with the Substance Abuse Prevention on Public Works Projects Act.
- h. Evidence of relevant experience that indicates the necessary capacity to perform the project and adequate references verifying the quality of work performed.
- i. For Village public works construction projects (construction of new Village facilities, renovation of existing Village facilities or Village road and/or utility construction projects) over fifty thousand dollars (\$50,000.00), evidence of participation in apprentice and training programs applicable to the work to be performed on the project which are approved by and registered with the United States Department of Labor Office of Apprenticeship and Training or are reasonably equivalent to such programs.
- j. For Village construction projects (construction of new Village facilities, renovation of existing facilities or Village road and/or utility construction projects), responsible bidders must demonstrate a good faith effort toward providing equal employment opportunities for persons to work as craftpersons, laborers, workers or mechanics consistent with the racial, ethnic and gender demographics of the labor force available in the Illinois Department of Employment Security Chicago-Naperville-Joliet Metropolitan Division which consists of Cook DeKalb, DuPage, Grundy, Kane, Kendall, McHenry and Will Counties.

CONCRETE LANDING SLAB

Description. This work shall consist of forming and pouring P.C. concrete base slabs under proposed unit brick pavers. This work shall be performed in accordance with the Plan details and as directed by the Engineer, and as specified herein.

Construction Requirements. This work shall be completed in accordance with applicable portions of Section 424 of the Standard Specifications. The concrete landing slab shall be 4" in thickness. In addition, the Contractor shall drill ½" diameter holes in the landing slab at 2' centers. The slab shall be covered with filter fabric before it is covered.

Method of Measurement. This work will be measured for payment in place and the area computed in square feet.

Basis of Payment. This item will be paid for at the contract unit price per square foot for CONCRETE LANDING SLAB for which such price shall include all labor, materials and equipment necessary to perform the work as herein specified.

BRICK PAVERS

<u>Description</u>. This work shall consist of the installation of brick. Any bricks that are lost, stolen or damaged shall be replaced by the Contractor at his own expense. The Contractor shall dispose of excess brick pavers.

Qualifications:

- A. Contractor must provide evidence that his firm or other entity proposed for the unit paving work has specific experience meeting the following criteria:
 - 1. Experience installing unit pavers using sand.
 - 2. Installed (within past three years) a minimum of 100,000 square feet per year for the past three years of unit paving using sand setting beds.
 - 3. The same experienced supervisory personnel will be made available for this project.
- B. If requested the paving firm shall submit a list of comparable projects setting forth description, square footage, location and knowledgeable references with addresses and phone numbers.

<u>Preparation of Subgrade</u>. The subgrade shall be prepared according to Section 301 of the Standard Specifications, except Articles 301.05 and 301.06 will not apply.

<u>Fine Aggregate</u>. The fine aggregate used for the bedding course and joint filling shall be sand, silica sand, or slag sand. It shall also be Class A quality and dry. For the bedding course, the gradation shall be FA 1 or FA 2. For joint filling, the gradation shall be FA 9. The bedding course shall be a minimum of two inches in depth.

General.

A. No paver setting work shall be performed when the underlayment has free moisture, ice, or snow, or when the underlayment is frozen.

Paver Installation

- A. Place pavers by hand in straight courses with hand tight joints and uniform top surface. Good alignment shall be maintained.
- B. Pavers shall be cut only when necessary.
- C. When all pavers are installed, apply joint sand to paving and sweep into all joints until joints are completely filled. Sweep clean the entire surface and remove all excess sand. Do not allow traffic on pavers prior to joints being filled.

<u>Cleaning of Paved Surface.</u> After completion of the unit pavers, paver installation areas shall be thoroughly swept clean and surface shall be left unsoiled.

<u>Method of Measurement.</u> Brick paver installation will be measured for payment of placed pavers and the area computed in square feet.

<u>Basis of Payment.</u> BRICK PAVERS will be paid for at the Contract Unit Price per square foot for which such price shall include all labor, materials and equipment necessary to perform the work as herein specified.

BRICK PAVER REMOVAL

<u>Description.</u> This work shall consist of the removal of existing brick pavers to accommodate the proposed brick pavers.

Method of Measurement. Brick paver removal will be measured for the area computed in square feet.

<u>Basis of Payment.</u> REMOVE AND REINSTALL BRICK PAVER will be paid for at the Contract Unit Price per square foot for which such price shall include all labor, materials and equipment necessary to perform the work as herein specified.

TREE REMOVAL (UNDER 6 UNITS DIAMETER)

Description: This work shall consist of removing any trees located within the landscaped area.

Method of Measurement. Tree removal shall be measured for each tree under 6 inches in diameter.

Basis of Payment. TREE REMOVAL (UNDER 6 UNITS DIAMETER) will be paid for at the Contract Unit Price each for which such price shall include all labor, materials and equipment necessary to perform the work as herein specified.

CONSTRUCTION LAYOUT

The CONTRACTOR shall be required to furnish and place construction layout stakes for this project. The ENGINEER will provide adequate reference points to the centerline of survey and benchmarks as shown in the plans and listed herein. Any additional control points set by the ENGINEER will be identified in the field to the CONTRACTOR and all field notes will be kept in the office of the ENGINEER.

The CONTRACTOR shall provide field forces, equipment and material to set all additional stakes for this project, which are needed to establish offset stakes, reference points, and any other horizontal or vertical controls, including supplementary benchmarks, necessary to secure a correct layout of the work. Stakes for line and grade of pavement and/or curb shall be set at sufficient station intervals (not to exceed 15 m (50 ft.)) to assure substantial conformance to plan line and grade. The CONTRACTOR will not be required to set additional stakes to locate a utility line which is not included as a pay item in the contract nor to determine property lines between private properties.

The CONTRACTOR shall be responsible for having the finished work substantially conform to the lines, grades, elevations and dimensions called for in the plans. Any inspection of checking of the CONTRACTOR'S layout by the ENGINEER and the acceptance of all or any part of it shall not relieve the CONTRACTOR of his/her responsibility to secure the proper dimension, grades and elevations of the several parts of the work. The CONTRACTOR shall exercise care in the preservation of stakes and benchmarks and shall have them reset at his/her expense when any are damaged, lost, displaced or removed or otherwise obliterated.

Responsibility of the ENGINEER

- a. The ENGINEER will locate and reference the control points for the project.
 - Locating and referencing the centerline of survey will consist of establishing and referencing the control points shown on the plans.
- b. Benchmarks will be established along the project outside of the construction lines not exceeding 300 m (1,000 ft.) intervals horizontally and 6 m (20 ft.) Vertically.
- c. Stakes set for (a) and (b) above will be identified in the field to the CONTRACTOR.
- d. The ENGINEER will make random checks of the CONTRACTOR'S staking to determine if the work is in substantial conformance with the plans. Where the CONTRACTOR'S work will tie into work that is being or will be done by others, checks will be made to determine if the work is in conformance with the proposed overall grade and horizontal alignment.
- e. The ENGINEER will set all stakes for utility adjustment for building fences along the right of way line by parties other than the CONTRACTOR.
- f. The ENGINEER will make all arrangements and take all cross sections from which the various pay items are to be measured.
- g. Where the CONTRACTOR, in setting construction stakes, discovers discrepancies, the ENGINEER will check to determine their nature and make whatever revisions are necessary in the plans, including the recross sectioning of the area involved. Any additional restaking required by the ENGINEER will be the responsibility of the CONTRACTOR. The additional restaking done by the CONTRACTOR will be paid for in accordance with 109.04 of the STANDARD SPECIFICATIONS.
- h. The ENGINEER will accept responsibility for the accuracy of the initial control points as provided herein.

- i. It is not the responsibility of the ENGINEER, except as provided herein, to check the correctness of the CONTRACTOR'S stakes; however, any errors that are apparent will be immediately called to the Contractor's attention and s(he) shall be required to make the necessary correction before the stakes are used for construction purposes.
- j. Where the plan quantities for excavation are to be used as the final pay quantities, the ENGINEER will make sufficient checks to determine if the work has been completed in substantial conformance with the plan cross sections.

Responsibility of the CONTRACTOR

a. The CONTRACTOR shall establish from the given survey points and benchmarks all the control points necessary to construct the individual project elements. S(he) shall provide the ENGINEER adequate control in close proximity to each individual element to allow adequate checking of construction operations. This includes, but is not limited to, line and grade stakes, line and grade nails in form work, and/or filed or etched marks in substantially completed construction work.

It is the CONTRACTOR'S responsibility to tie in centerline control points in order to preserve them during construction operations.

At the completion of the grading operations, the CONTRACTOR will be required to set stakes at 30 m (100 ft.) station intervals along each profile grade line. These stakes will be used for final cross sectioning by the ENGINEER.

- c. All work shall be in accordance with normally accepted self-checking surveying practices. Field notes shall be kept in standard survey field notebooks and those books shall become the property of the ENGINEER at the completion of the project. All notes shall be neat, orderly and in accepted form.
- d. For highway structure staking, the CONTRACTOR shall use diligent care and appropriate accuracy. Points shall be positioned to allow reuse throughout the construction accuracy. Prior to the beginning of construction activities, all structure centerlines and pier lines are to be established by the CONTRACTOR and checked by the engineer. The CONTRACTOR shall provide a detailed structure layout showing span dimensions, staking lines and offset distances.

Measurement and Payment:

This item will be paid for at the contract lump sum price for CONSTRUCTION LAYOUT, which prices shall be payment in full for all services, materials, labor and other items required to complete the work.

REMOVE EXISTING MEDIAN MOUNTED RECEPTACLES AND IRRIGATION SYSTEM

Description: This work shall consist of the following scope of work:

Median Receptacles

- 1. The Contractor shall disconnect the existing wiring from the existing light pole splice kit and replace existing pole wiring and branch circuit wiring in light pole.
- 2. The Contractor shall remove the existing wiring feeding between the pole handhole and parkway and median quazite junction boxes. Remove existing composite concrete junction boxes and return them to the Village Public Works Department.
- 3. Remove all existing receptacles and dispose of accordingly.

Irrigation Features

- 1. The Contractor shall locate the existing valve box feeding the median irrigation system and close valve
- 2. The Contractor shall cut and permanently cap the irrigation service line feeding the median irrigation system at the valve box and abandon service line in place.
- 3. The Contractor shall disconnect and remove all control valve wiring from the box to the individual heads in the median. Remove and dispose of existing heads accordingly.

Method of Measurement and Basis of Payment: This work shall be paid for at the line item unit price Each for REMOVE EXISTING MEDIAN MOUNTED RECEPTACLES AND IRRIGATION SYSTEM. This price shall include all labor and materials for the removal and decommissioning of each median electrical and irrigation system complete in place.

SHRUB REMOVAL

Description: This work shall consist of removing and disposing of any shrubs and groundcover within the landscaped area.

Method of Measurement. Shrub removal shall be measured by the complete removal of all shrubs and groundcover shown on the original landscaping plans. The removal of any additional shrubs or groundcover plants that have grown beyond what is shown as existing are incidental to shrub removal.

Basis of Payment. This item shall be paid for at the contract unit price per Lump Sum for SHRUB REMOVAL for which such price shall include all labor, materials and equipment necessary to perform the work as herein specified.

TRAFFIC CONTROL AND PROTECTION

The Traffic Control and Protection shall meet the requirements of Article 701, Work Zone Traffic Control and Article 702, Work Zone Traffic Control Devices of the Standard Specifications for Road and Bridge Construction adopted January 1, 1997.

"701.01 Description" shall be replaced with the following:

701.01 Description

This item of work shall include furnishing, installing, maintaining, replacing, relocating and removing all traffic control devices used for the purpose of regulating, warning or directing traffic during the construction or maintenance of this improvement.

Traffic Control and Protection shall be provided as called for in the Plans, these Special Provisions, applicable Highway Standards, applicable sections of the Standard Specifications, or as directed by the Engineer.

The governing factor in the execution and staging of work for this project is to provide the motoring public with the safest possible travel conditions along the roadway through the construction zone. The Contractor shall arrange his operations to keep the closing of any lane of the roadway to a minimum.

Traffic Control Devices include signs and their supports, signals, pavement markings, barricades with sand bags, channelized devices, warning lights, arrow boards, flaggers, or any other device used for the purpose of regulating, detouring, warning or guiding traffic through or around the construction zone.

"701.04 General," section "(b)" paragraph 4 shall be replaced with the following:

The Contractor is required to conduct routine inspections of the work site at a frequency that will allow for the timely replacement of any traffic control device that has become displaced, worn or damaged to the extent that it no longer conforms to the shape, dimensions, color and operational requirements of the MUTCD, the Traffic Control Standards or will no longer present a neat appearance to motorists. A sufficient <u>quantity</u> of replacement devices, based on vulnerability to damage, shall be readily available to meet this requirement.

The Contractor shall be responsible for the proper location, installation and arrangement of all traffic control devices. Special attention shall be given to advance warning signs during construction operations in order to keep lane assignments consistent with barricade placement at all times. The Contractor shall immediately remove, cover or turn from view of the motorists all traffic control devices which are inconsistent with detour or lane assignment patterns and conflicting conditions during the transition from one construction stage to another. When the Contractor elects to cover conflicting or inappropriate signing, materials used shall totally block out reflectivity of the sign and shall cover the entire sign. The method used for covering the signing shall meet with the approval of the Engineer.

The Contractor shall coordinate all traffic control work on this project with adjoining or overlapping projects, including barricade placement necessary to provide a uniform traffic detour pattern. When directed by the Engineer, the Contractor shall remove all traffic control devices which were furnished, installed and maintained by him under this contract, and such devices shall remain the property of the Contractor. All traffic control devices shall remain in place until specific authorization for relocation or removal is received from the Engineer.

The Contractor shall ensure that all traffic control devices installed by him are operational, functional and effective 24-hours a day, including Sundays and holidays.

"701.04 General" shall be modified by adding the following section:

(G) PUBLIC SAFETY AND CONVENIENCE:

The Contractor shall provide a telephone number where a responsible individual can be contacted on a 24-hour a day basis to receive notification of any deficiencies regarding traffic control and protection. The Contractor shall dispatch men, materials, and equipment to correct any such deficiencies. The Contractor shall respond to any call from the Village or its representative concerning any request for improving or correcting traffic control devices and begin making the requested repairs within two hours from the time of notification.

Personal vehicles shall not park within the right-of-way except in specific areas designated by the Engineer. All roads shall remain open to traffic, the Contractor, may close one lane due to construction only between the hours of 9:00 a.m. and 3:00 p.m. on two lane roads, and shall maintain at least one lane in each direction on four or more lane roads, during the construction of this project. The Contractor shall also maintain entrances and side roads along the proposed improvement. Interference with traffic movements and inconvenience to owners of abutting property and the public shall be kept to a minimum. Any delays or inconveniences caused by the Contractor by complying with these requirements shall be considered as incidental to the contract, and no additional compensation will be allowed.

On two lane roads, the Contractor is to plan his work so that there will be no open holes in the pavement and that all barricades will be removed from the pavement during non-work hours.

On four or more lane highways, there shall be no open holes in the pavement being used by the traveling public. Lane closures, if allowed, will be in accordance with the applicable standards, any staging details shown in the plans and other applicable contract documents.

The Contractor shall remove all equipment from the shoulders and medians after work hours.

No road closures or restrictions shall be permitted except those covered by Standard Designs without written approval by the Engineer.

"701.04 General" shall be modified by adding the following section:

(H) DEFICIENCY CHARGE:

The primary concern of the Village is to maintain a safe travel way for the public and a safe Environment for the worker in the construction zone. The Contractor is expected to comply with the Standard Specifications, contract plans, these Special Provisions, and directions from the Engineer concerning traffic control protection. The Contractor shall provide a telephone number where a responsible individual can be contacted on a 24-hour a day basis to receive notification of any deficiencies regarding traffic control and protection. The Contractor shall immediately respond correcting traffic control deficiencies by dispatching men, materials and equipment to correct such deficiencies.

If the Contractor fails to begin corrections to the traffic control deficiencies within two (2) hours of the initial attempt of notification by the Village or its representative or fails to restore the traffic control and protection compliance with the specifications within eight (8) hours of the original attempt of notification, the Engineer may execute such work as deemed necessary to correct the deficiencies. The cost thereof shall be deducted from monies due or which may be due the Contractor.

Failure to comply with directions from the Engineer for corrections or modifications to the traffic control and protection will result in a charge of \$500.00 per calendar day. This charge is separate from the cost of any corrective work ordered. The contractor shall not be relieved of any contractual responsibilities by the Village's action.

"701.07 Method of Measurement" is replaced in its entirety by the following:

701.07 METHOD OF MEASUREMENT

These items of work will be measured on a lump sum basis for furnishing, installing, maintaining, replacing, relocating and removing the traffic control devices required in the Plans and these Special Provisions.

"701.08 Basis of Payment" is replaced in its entirety by the following:

701.08 BASIS OF PAYMENT

This work will be paid for at the contract lump sum price for TRAFFIC CONTROL AND PROTECTION, which shall be payment in full for all labor, materials, transportation, and incidentals necessary to furnish, install, maintain, replace, relocate and remove all traffic control devices indicated in the Plans and Specifications.

The salvage value of the materials removed shall be reflected in the bid price for this item. Delays to the Contractor caused by complying with these requirements will be considered incidental to the item for Traffic Control and Protection, and no additional compensation will be allowed.

If the Engineer, shall require additional traffic control to be installed in accordance with standards and/or designs other that those included in the Plans. The standards and/or designs will be made available to the Contractor at least one week in advance of the change in traffic control. Payment for any additional traffic control required will be in accordance with Article 109.04 of the Standard Specifications. Revisions in the phasing of construction or maintenance operations, requested by the Contractor, may require traffic control to be installed in accordance with standards and/or designs other than those included in the plans. Revisions or modifications to the traffic control shown on the contract shall be submitted by the Contractor for approval by the Engineer. No additional payment will be made for a Contractor requested modification. In the event the sum total value of all work items for which traffic control and protection is required is increased or decreased by more than ten percent (10%), the contract bid price for Traffic Control and Protection will be adjusted as follows:

Adjusted contract price = .25P + .75P [1 + (X-0.1)]

Where "P' is the contract price for Traffic Control and Protection

Difference between original and final sum total value of all work items for which traffic

Where "X"= control and protection is required.

Original sum total value of all work for which traffic control and protection is required.

The value of the work items used in calculating the increase and decrease will include only items which have been added to or deducted from the contract under Article 104.02 of the Standard Specifications and only items which require use of Traffic Control and Protection.

In the event the Department cancels or alters any portion of the contract which results in elimination or noncompletion of any portion of the work, payment for partially completed work will be made in accordance with Article 104.02 of the Standard Specifications.

"702.03 Channeling Devices" section "(b)", paragraph 1 shall be replaced with the following:

(b) Barricades

Type 1 and Type 1 A Barricades are intended for use on lower speed roads and shall not be used where the normal posted speed limit is 45 m.p.h. or greater. The normal posted speed limit for construction area is 40 m.p.h. Type 1 and Type 2 Barricades shall not be intermixed within an individual string of barricades. Type 3 Barricades shall be used for road and lane closures and shall not be used for channelization or delineation.

Any drop off greater than 75 mm (three inches), but less than 150 mm (six inches), within 2.5 m (eight feet) of the pavement edge shall be protected by Type 1 or 2 barricades equipped with mono-directional steady burn lights at 30 m (100 foot) center to center spacing. If the drop off within 2.5m (eight feet) of the pavement edge exceeds 150 mm (six inches), the barricades mentioned above shall be paced at 15 m (50 foot) center to center spacing. Barricades that must be placed in excavated areas shall have a leg extension installed such that the top of the barricade is in compliance with the height requirements of Standard 702001.

All Type 1 and Type 2 barricades, shall be equipped with a steady burn light when used during hours of darkness unless otherwise stated herein.

Check barricades shall be placed in work areas perpendicular to traffic every 300 m (1,000 feet), one per lane and per shoulder, to prevent motorists from using work areas as a traveled way. Two additional check barricades shall be placed in advance of each patch excavation or any other hazard in the work area, the first at the edge of the open traffic lane and the second centered in the closed lane. Check barricades shall be Type 1 or 2 and equipped with a flashing light.

"702.03 Channeling Devices" section "(c)" Vertical Panels, add the following:

All vertical panels shall be equipped with a steady burn light when used during the hours of darkness unless otherwise stated herein or in the Plans.

"702.05 Signs" section "(a)" add as paragraph 7:

Construction signs referring to daytime lane closures during working hours shall be removed, covered, or turned away from the view of the motorists during non-working hours.

REMOVE CONCRETE LANDING SLAB

Description: This work shall consist of removing the layer of concrete slab beneath the exiting brick layer of the road islands. Only the concrete slab itself is to be removed, leaving the

Method of Measurement. Remove Concrete Landing Slab shall be measured by the area computed in square feet.

Basis of Payment. This item shall be paid for at the contract unit price per square foot for REMOVE CONCRETE LANDING SLAB for which such price shall include all labor, materials and equipment necessary to perform the work as herein specified.

ITEMS ORDERED BY ENGINEER

An allowance has been set aside as part of this contract for items ordered by the engineer.

The Contractor will include in his bid a unit price of \$1.00 for ITEMS ORDERED BY ENGINEER. Only additional work, not covered by existing Pay Items, indicated on the Drawings or in the Project Specifications will be eligible for payment under the Allowance.

CONTRACTOR'S DRUG-FREE WORKPLACE CERTIFICATION

The undersigned is an authorized representative of

(Name of Company)

and certifies that they will comply with all current Statutes entitled "Drug Free Workplace Act". The undersigned CONTRACT OR hereby certifies to the contracting agency that it will provide a drug-free workplace by:

- (a) Publishing a statement:
 - (1) Notifying employees that the unlawful manufacture, distribution, dispensation, possession, or use of a controlled substance, including cannabis, is prohibited in the grantee's of CONTRACTOR'S workplace.
 - (2) Specifying the actions that will be taken against employees for violations of such prohibition.
 - (3) Notifying the employee that, as a condition of employment on such contract or grant, the employee will:
 - (A) abide by the terms of the statement; and
 - (B) notify the employer of any criminal drug statute conviction for a violation occurring in the workplace no later than 5 days after such conviction.
- (b) Establishing a drug free awareness program to inform employees about:
 - (1) the dangers of drug abuse in the workplace;
 - (2) the grantee's or CONTRACTOR'S policy of maintaining drug free workplace;
 - (3) any available drug counseling, rehabilitation, and employee assistance program; and
 - (4) the penalties that may be imposed upon employees for drug violations.
- (c) Making it a requirement to give a copy of the statement required by subsection (a) to each employee engaged in the performance of the contract or grant and to post the statement in a prominent place in the workplace.
- (d) Notifying the contracting agency within 10 days after receiving notice under part (B) of paragraph (3) of subsection (a) from an employee or otherwise receiving actual notice of such conviction.

CONTRACTOR'S DRUG-FREE WORKPLACE CERTIFICATION (continued)

- (e) Imposing a sanction on, or requiring the satisfactory participation in a drug assistance or rehabilitation program by any employee who is so convicted, as required by Section 5 (30 ILCS 580/5) of the Act.
- (f) Assisting employees in selecting a course of action in the event drug counseling treatment, and rehabilitation is required and indicating that a trained referral team in place.
- (g) Making a good faith effort to continue to maintain a drug free workplace through implementation of this Section.

Failure to abide by this certification shall subject the CONTRACTOR to the penalties provided in Section 6 (30 ILCS 580/6) of the

Sign and Return to: Regional Engineer				
	Regional Engineer S	Signature	Date	
Approved by Department of Transportation:				
Printed 06/06/24	Page 1 of	f3		OPER 1045 (Rev. 09/21/2

First: The Applicant represents and warrants that he/she is the party in interest respecting this Permit and that he/she is the agent in fact with authority to bind all parties in interest to the obligations and undertakings agreed to in this Permit. The Applicant represents and warrants that the property lines shown on the attached plan sheet(s) or sketch are true and correct, and that all proposed work is accurately depicted thereon.

Second: The proposed work shall be located and constructed to the satisfaction of the Regional Engineer or his/her duly authorized representative. No revision or additions shall be made to the proposed work on the right-of-way without the written permission of the Regional Engineer. The Applicant agrees to complete all work to the standards and specifications identified by the Regional Engineer or his/her authorized representative as a condition of granting this Permit. The Applicant agrees to furnish all labor, equipment and material, portions of the highway right-of-way to the condition satisfactory to the Regional Engineer or his/her authorized representative including, but not limited to, all landscape restoration. The Applicant shall not trim, cut or in any way disturb any trees or shrubbery along the highway without the approval of the Regional Engineer or his/her duly authorize representative. Any and all documents, writings and notes reflecting or identifying the standards, specifications, understandings and conditions applicable to the performance of the permitted work required by the Regional Engineer or his/her authorized representative are hereby incorporated into this Permit by reference as though fully set forth herein.

Third: The Applicant shall at all times conduct the work in such a manner as to minimize hazards to vehicular and pedestrian traffic. Traffic controls and work site protection shall be in accordance with the applicable requirements of Part 6 (Temporary Traffic Control) of the Illinois Manual on Uniform Traffic Control Devices and with the traffic control plan if one is required elsewhere in the permit. All signs, barricades, flaggers, etc., required for traffic control shall be furnished by the Applicant. The work may be done on any day except Sunday, New Year's Day, Memorial Day, Independence Day, Labor Day, Thanksgiving Day and Christmas Day. Work shall be done only during daylight hours.

Fourth: The work performed by the Applicant is for the bona fide purpose expressed and not for the purpose of, nor will it result in, the parking or serving of vehicles on the highway right-of-way. Signs located on or overhanging the right-of-way shall be prohibited.

Fifth: The Applicant shall engage in only the proposed work approved herein, and subject to the hazards incident to such activities, assumes all risks associated therewith. The Applicant assumes full and strict liability for the actions of itself, all parties in interest, its agents and employees, contractors, subcontractors and consultants. The Applicant and all parties in interest shall save, defend, hold harmless and indemnify the State of Illinois and each of its officers, agents, employees, invitees and others associated with it from and against any and all suits, claims, actions, losses, injuries, damages, judgments and expenses that are based on, or that arise or are alleged to have arisen out of the performance of the work approved herein, including, but not limited to, any act, willful or intended, or negligence of the Applicant and any party in interest, its agents and employees, contractors, subcontractors and consultants whether at law, in equity or common law. In the event the Applicant or any party in interest fails, neglects, or refuses to comply with any provision of this indemnity, the State of Illinois may take any action necessary to protect itself from liability, including any action to pay, settle, compromise and procure the discharge thereof, in which case the Applicant or any party in interest, jointly and severally, shall be liable and bound unto the State of Illinois for any and all expenses related thereto, including attorney's fees.

Sixth: The State reserves the right to make such changes, additions, repairs and relocations within its statutory limits to the facilities constructed under this permit or their appurtenances on the right-of-way as may at any time be considered necessary to permit the relocation, reconstruction, widening or maintaining of the highway and/or provide proper protection to life and property on or adjacent to the State right-of-way. However, in the event this permit is granted to construct, locate, operate and maintain utility facilities on the State right-of-way, the Applicant, upon written request by the Regional Engineer, shall perform such alterations or change of location of the facilities, without expense to the State, and should the Applicant fail to make satisfactory arrangements to comply with this request within a reasonable time, the State reserves the right to make such alterations or change of location or remove the work, and the Applicant agrees to pay for the cost incurred.

Seventh: This permit is effective only insofar as the Department has jurisdiction and does not presume to release the Applicant from compliance with the provisions of any exiting statutes or local regulations relating to the construction of such work.

Eighth: The Construction of access driveways is subject to the regulations listed in the "Policy on Permits for Access Driveways to State Highways". If, in the future, the land use of property served by an access driveway described and constructed in accordance with this permit changes so as to require a higher driveway type as defined in that policy, the owner shall apply for a new permit and bear the costs for such revisions as may be required to conform to the regulations listed in the policy. Utility installations shall be subject to the "Policy on the Accommodation of Utilities on Right-of-Way of the Illinois State Highway System".

Ninth: If the work covered by this permit includes construction of additional lanes, turn lanes, median cross-overs or traffic signals on, along or adjacent to a highway under Department jurisdiction, the permittee shall use only contractor(s) approved by the Department of Transportation for the performance of said work on the State highway. A contractor currently prequalified by the Department in the work rating governing the said work shall be approved. Prior to the commencement of the said work on the State highway, the applicant shall furnish the Regional Engineer a copy of the contractor's current Certificate of Eligibility, or, if the permittee proposes to use a contractor not currently prequalified by the Department, information satisfactory to the Department evidencing the contractor's qualification and ability to perform the said work. No work on the State highway shall be performed until the Department issues an approval of the proposed contractor.

State of Illinois DEPARTMENT OF TRANSPORTATION Bureau of Local Roads & Streets SPECIAL PROVISION FOR

LOCAL QUALITY ASSURANCE/ QUALITY MANAGEMENT QC/QA Effective: January 1, 2022

Replace the first five paragraphs of Article 1030.06 of the Standard Specifications with the following:

"1030.06 Quality Management Program. The Quality Management Program (QMP) will be Quality Control / Quality Assurance (QC/QA) according to the following."

Delete Article 1030.06(d)(1) of the Standard Specifications.

Revise Article 1030.09(g)(3) of the Standard Specifications to read:

"(3) If core testing is the density verification method, the Contractor shall provide personnel and equipment to collect density verification cores for the Engineer. Core locations will be determined by the Engineer following the document "Hot-Mix Asphalt QC/QA Procedure for Determining Random Density Locations" at density verification intervals defined in Article 1030.09(b). After the Engineer identifies a density verification location and prior to opening to traffic, the Contractor shall cut a 4 in. (100 mm) diameter core. With the approval of the Engineer, the cores may be cut at a later time."

Revise Article 1030.09(h)(2) of the Standard Specifications to read:

"(2) After final rolling and prior to paving subsequent lifts, the Engineer will identify the random density verification test locations. Cores or nuclear density gauge testing will be used for density verification. The method used for density verification will be as selected below.

	Density Verification Method
	Cores
	Nuclear Density Gauge (Correlated when
l	paving ≥ 3,000 tons per mixture)

Density verification test locations will be determined according to the document "Hot-Mix Asphalt QC/QA Procedure for Determining Random Density Locations". The density testing interval for paving wider than or equal to 3 ft (1 m) will be 0.5 miles (800 m) for lift thicknesses of 3 in. (75 mm) or less and 0.2 miles (320 m) for lift thicknesses greater than 3 in. (75 mm). The density testing interval for paving less than 3 ft (1 m) wide will be 1 mile (1,600 m). If a day's paving will be less than the prescribed density testing interval, the length of the day's paving will be the interval for that day. The density testing interval for mixtures used for patching will be 50 patches with a minimum of one test per mixture per project.

If core testing is the density verification method, the Engineer will witness the Contractor coring, and secure and take possession of all density samples at the

density verification locations. The Engineer will test the cores collected by the Contractor for density according to Illinois Modified AASHTO T 166 or AASHTO T 275.

If nuclear density gauge testing is the density verification method, the Engineer will conduct nuclear density gauge tests. The Engineer will follow the density testing procedure detailed in the document "Illinois Modified ASTM D 2950, Standard Test Method for Density of Bituminous Concrete In-Place by Nuclear Method".

A density verification test will be the result of a single core or the average of the nuclear density tests at one location. The results of each density test must be within acceptable limits. The Engineer will promptly notify the Contractor of observed deficiencies."

Revise the seventh paragraph and all subsequent paragraphs in Section D. of the document "Hot-Mix Asphalt QC/QA Initial Daily Plant and Random Samples" to read:

"Mixtures shall be sampled from the truck at the plant by the Contractor following the same procedure used to collect QC mixture samples (Section A). This process will be witnessed by the Engineer who will take custody of the verification sample. Each sample bag with a verification mixture sample will be secured by the Engineer using a locking ID tag. Sample boxes containing the verification mixture sample will be sealed/taped by the Engineer using a security ID label."

OT M-F Unless otherwise noted, OT pay is required for any hour greater than 8 worked each day, Mon through Fri. The number listed is the multiple of the base wage.

OT Sa Overtime pay required for every hour worked on Saturdays

OT Su Overtime pay required for every hour worked on Sundays

OT Hol Overtime pay required for every hour worked on Holidays

H/W Health/Welfare benefit

Vac Vacation

Trng Training

Other Ins Employer hourly cost for any other type(s) of insurance provided for benefit of worker.

Explanations COOK COUNTY

The following list is considered as those days for which holiday rates of wages for work performed apply: New Years Day, Memorial Day, Fourth of July, Labor Day, Thanksgiving Day, Christmas Day and Veterans Day in some classifications/counties. Generally, any of these holidays which fall on a Sunday is celebrated on the following Monday. This then makes work performed on that Monday payable at the appropriate overtime rate for holiday pay. Common practice in a given local may alter certain days of celebration. If in doubt, please check with IDOL.

TRUCK DRIVERS (WEST) - That part of the county West of Barrington Road.

EXPLANATION OF CLASSES

ASBESTOS - GENERAL - removal of asbestos material/mold and hazardous materials from any place in a building, including mechanical systems where those mechanical systems are to be removed. This includes the removal of asbestos materials/mold and hazardous materials from ductwork or pipes in a building when the building is to be demolished at the time or at some close future date. ASBESTOS - MECHANICAL - removal of asbestos material from mechanical systems, such as pipes, ducts, and boilers, where the mechanical systems are to remain.

CERAMIC TILE FINISHER

The grouting, cleaning, and polishing of all classes of tile, whether for interior or exterior purposes, all burned, glazed or unglazed products; all composition materials, granite tiles, warning detectable tiles, cement tiles, epoxy composite materials, pavers, glass, mosaics, fiberglass, and all substitute materials, for tile made in tile-like units; all mixtures in tile like form of cement, metals, and other materials that are for and intended for use as a finished floor surface, stair treads, promenade roofs, walks, walls, ceilings, swimming pools, and all other places where tile is to form a finished interior or exterior. The mixing of all setting mortars including but not limited to thin-set mortars, epoxies, wall mud, and any other sand and cement mixtures or adhesives when used in the preparation, installation, repair, or maintenance of tile and/or similar materials. The handling and unloading of all sand, cement, lime, tile, fixtures, equipment, adhesives, or any other materials to be used in the preparation, installation, repair, or maintenance of tile and/or similar materials. Ceramic Tile Finishers shall fill all joints and voids regardless of method on all tile work, particularly and especially after installation of said tile work. Application of any and all protective coverings to all types of tile installations including, but not be limited to, all soap compounds, paper products, tapes, and all polyethylene coverings, plywood, masonite, cardboard, and any new type of products that may be used to protect tile installations, Blastrac equipment, and all floor scarifying equipment used in preparing floors to receive tile. The clean up and removal of all waste and materials. All demolition of existing tile floors and walls to be re-tiled.

COMMUNICATIONS ELECTRICIAN

Installation, operation, inspection, maintenance, repair and service of radio, television, recording, voice sound vision production and reproduction, telephone and telephone interconnect, facsimile, data apparatus, coaxial, fibre optic and wireless equipment, appliances and systems used for the transmission and reception of signals of any nature, business, domestic, commercial,

education, entertainment, and residential purposes, including but not limited to, communication and telephone, electronic and sound equipment, fibre optic and data communication systems, and the performance of any task directly related to such installation or service whether at new or existing sites, such tasks to include the placing of wire and cable and electrical power conduit or other raceway work within the equipment room and pulling wire and/or cable through conduit and the installation of any incidental conduit, such that the employees covered hereby can complete any job in full.

MARBLE FINISHER

Loading and unloading trucks, distribution of all materials (all stone, sand, etc.), stocking of floors with material, performing all rigging for heavy work, the handling of all material that may be needed for the installation of such materials, building of scaffolding, polishing if needed, patching, waxing of material if damaged, pointing up, caulking, grouting and cleaning of marble, holding water on diamond or Carborundum blade or saw for setters cutting, use of tub saw or any other saw needed for preparation of material, drilling of holes for wires that anchor material set by setters, mixing up of molding plaster for installation of material, mixing up thin set for the installation of material, mixing up of sand to cement for the installation of material and such other work as may be required in helping a Marble Setter in the handling of all material in the erection or installation of interior marble, slate, travertine, art marble, serpentine, alberene stone, blue stone, granite and other stones (meaning as to stone any foreign or domestic materials as are specified and used in building interiors and exteriors and customarily known as stone in the trade), carrara, sanionyx, vitrolite and similar opaque glass and the laying of all marble tile, terrazzo tile, slate tile and precast tile, steps, risers treads, base, or any other materials that may be used as substitutes for any of the aforementioned materials and which are used on interior and exterior which are installed in a similar manner.

MATERIAL TESTER I: Hand coring and drilling for testing of materials; field inspection of uncured concrete and asphalt.

MATERIAL TESTER II: Field inspection of welds, structural steel, fireproofing, masonry, soil, facade, reinforcing steel, formwork, cured concrete, and concrete and asphalt batch plants; adjusting proportions of bituminous mixtures.

OPERATING ENGINEER - BUILDING

Class 1. Asphalt Plant; Asphalt Spreader; Autograde; Backhoes with Caisson Attachment; Batch Plant; Benoto (requires Two Engineers); Boiler and Throttle Valve; Caisson Rigs; Central Redi-Mix Plant; Combination Back Hoe Front End-loader Machine; Compressor and Throttle Valve; Concrete Breaker (Truck Mounted); Concrete Conveyor; Concrete Conveyor (Truck Mounted); Concrete Paver Over 27E cu. ft; Concrete Paver 27E cu. ft; Concrete Paver 27E cu. ft. and Under. Concrete Placer; Concrete Placing Boom; Concrete Pump (Truck Mounted); Concrete Tower; Cranes, All; Cranes, Hammerhead; Cranes, (GCl and similar Type); Creter Crane; Spider Crane; Crusher, Stone, etc.; Derricks, All; Derricks, Traveling; Formless Curb and Gutter Machine; Grader, Elevating; Grouting Machines; Heavy Duty Self-Propelled Transporter or Prime Mover; Highlift Shovels or Front Endloader 2-1/4 yd. and over; Hoists, Elevators, outside type rack and pinion and similar machines; Hoists, One, Two and Three Drum; Hoists, Two Tugger One Floor; Hydraulic Backhoes; Hydraulic Boom Trucks; Hydro Vac (and similar equipment); Locomotives, All; Motor Patrol; Lubrication Technician; Manipulators; Pile Drivers and Skid Rig; Post Hole Digger; Pre-Stress Machine; Pump Cretes Dual Ram; Pump Cretes: Squeeze Cretes-Screw Type Pumps; Gypsum Bulker and Pump; Raised and Blind Hole Drill; Roto Mill Grinder; Scoops - Tractor Drawn; Slip-Form Paver; Straddle Buggies; Operation of Tie Back Machine; Tournapull; Tractor with Boom and Side Boom; Trenching

Class 2. Boilers; Broom, All Power Propelled; Bulldozers; Concrete Mixer (Two Bag and Over); Conveyor, Portable; Forklift Trucks; Highlift Shovels or Front Endloaders under 2-1/4 yd.; Hoists, Automatic; Hoists, Inside Elevators; Hoists, Sewer Dragging Machine; Hoists, Tugger Single Drum; Laser Screed; Rock Drill (Self-Propelled); Rock Drill (Truck Mounted); Rollers, All; Steam Generators; Tractors, All; Tractor Drawn Vibratory Roller, Winch Trucks with "A" Frame.

Class 3. Air Compressor, Combination Small Equipment Operator, Generators; Heaters, Mechanical; Hoists, Inside Elevators (remodeling or renovation work); Hydraulic Power Units (Pile Driving, Extracting, and Drilling); Pumps, over 3" (1 to 3 not to exceed a total of 300 ft.); Low Boys; Pumps, Well Points; Welding Machines (2 through 5); Winches, 4 Small Electric Drill Winches.

Class 4. Bobcats and/or other Skid Steer Loaders; Oilers; and Brick Forklift.

Class 5. Assistant Craft Foreman.

Class 6. Gradall.

Class 7. Mechanics; Welders.

OPERATING ENGINEERS - HIGHWAY CONSTRUCTION

Class 1. Asphalt Plant; Asphalt Heater and Planer Combination; Asphalt Heater Scarfire; Asphalt Spreader; Autograder/GOMACO or other similar type machines: ABG Paver; Backhoes with Caisson Attachment; Ballast Regulator; Belt Loader; Caisson Rigs; Car Dumper; Central Redi-Mix Plant; Combination Backhoe Front Endloader Machine, (1 cu. yd. Backhoe Bucket or over or with attachments); Concrete Breaker (Truck Mounted); Concrete Conveyor; Concrete Paver over 27E cu. ft.; Concrete Placer; Concrete Tube Float; Cranes, all attachments; Cranes, Tower Cranes of all types: Creter Crane: Spider Crane; Crusher, Stone, etc.; Derricks, All; Derrick Boats; Derricks, Traveling; Dredges; Elevators, Outside type Rack & Pinion and Similar Machines; Formless Curb and Gutter Machine; Grader, Elevating; Grader, Motor Grader, Motor Patrol, Auto Patrol, Form Grader, Pull Grader, Subgrader, Guard Rail Post Driver Truck Mounted; Hoists, One, Two and Three Drum; Heavy Duty Self-Propelled Transporter or Prime Mover; Hydraulic Backhoes; Backhoes with shear attachments up to 40' of boom reach; Lubrication Technician; Manipulators; Mucking Machine; Pile Drivers and Skid Rig; Pre-Stress Machine; Pump Cretes Dual Ram; Rock Drill - Crawler or Skid Rig; Rock Drill - Truck Mounted; Rock/Track Tamper; Roto Mill Grinder; Slip-Form Paver; Snow Melters; Soil Test Drill Rig (Truck Mounted); Straddle Buggies; Hydraulic Telescoping Form (Tunnel); Operation of Tieback Machine; Tractor Drawn Belt Loader; Tractor Drawn Belt Loader (with attached pusher - two engineers): Tractor with Boom: Tractaire with Attachments: Traffic Barrier Transfer Machine: Trenching; Truck Mounted Concrete Pump with Boom; Raised or Blind Hole Drills (Tunnel Shaft); Underground Boning and/or Mining Machines 5 ft. in diameter and over tunnel, etc; Underground Boring and/or Mining Machines under 5 ft. in diameter; Wheel Excavator; Widener (APSCO).

Class 2. Batch Plant; Bituminous Mixer; Boiler and Throttle Valve; Bulldozers; Car Loader Trailing Conveyors; Combination Backhoe Front Endloader Machine (Less than 1 cu. yd. Backhoe Bucket or over or with attachments); Compressor and Throttle Valve; Compressor, Common Receiver (3); Concrete Breaker or Hydro Hammer; Concrete Grinding Machine; Concrete Mixer or Paver 7S Series to and including 27 cu. ft.; Concrete Spreader; Concrete Curing Machine, Burlap Machine, Belting Machine and Sealing Machine; Concrete Wheel Saw; Conveyor Muck Cars (Haglund or Similar Type); Drills, All; Finishing Machine - Concrete; Highlift Shovels or Front Endloader; Hoist - Sewer Dragging Machine; Hydraulic Boom Trucks (All Attachments); Hydro-Blaster; Hydro

Excavating (excluding hose work); Laser Screed; All Locomotives, Dinky; Off-Road Hauling Units (including articulating) Non Self-Loading Ejection Dump; Pump Cretes: Squeeze Cretes - Screw Type Pumps, Gypsum Bulker and Pump; Roller, Asphalt; Rotary Snow Plows; Rototiller, Seaman, etc., self-propelled; Self-Propelled Compactor; Spreader - Chip - Stone, etc.; Scraper - Single/Twin Engine/Push and Pull; Scraper - Prime Mover in Tandem (Regardless of Size); Tractors pulling attachments, Sheeps Foot, Disc, Compactor, etc.; Tug Boats.

Class 3. Boilers; Brooms, All Power Propelled; Cement Supply Tender; Compressor, Common Receiver (2); Concrete Mixer (Two Bag and Over); Conveyor, Portable; Farm-Type Tractors Used for Mowing, Seeding, etc.; Forklift Trucks; Grouting Machine; Hoists, Automatic; Hoists, All Elevators; Hoists, Tugger Single Drum; Jeep Diggers; Low Boys; Pipe Jacking Machines; Post-Hole Digger; Power Saw, Concrete Power Driven; Pug Mills; Rollers, other than Asphalt; Seed and Straw Blower; Steam Generators; Stump Machine; Winch Trucks with "A" Frame; Work Boats; Tamper-Form-Motor Driven.

Class 4. Air Compressor, Combination - Small Equipment Operator; Directional Boring Machine; Generators; Heaters, Mechanical; Hydraulic Power Unit (Pile Driving, Extracting, or Drilling); Light Plants, All (1 through 5); Pumps, over 3" (1 to 3 not to exceed a total of 300 ft.); Pumps, Well Points; Vacuum Trucks (excluding hose work); Welding Machines (2 through 5); Winches, 4 Small Electric Drill Winches.

Class 5. SkidSteer Loader (all); Brick Forklifts; Oilers.

Class 6. Field Mechanics and Field Welders

Class 7. Dowell Machine with Air Compressor; Gradall and machines of like nature.

OPERATING ENGINEER - FLOATING

Class 1. Craft Foreman; Master Mechanic; Diver/Wet Tender, Engineer; Engineer (Hydraulic Dredge).

Class 2. Crane/Backhoe Operator; Boat Operator with towing endorsement; Mechanic/Welder; Assistant Engineer (Hydraulic Dredge); Leverman (Hydraulic Dredge); Diver Tender.

Class 3. Deck Equipment Operator, Machineryman, Maintenance of Crane (over 50 ton capacity) or Backhoe (115,000 lbs. or more); Tug/Launch Operator; Loader/Dozer and like equipment on Barge, Breakwater Wall, Slip/Dock, or Scow, Deck Machinery, etc.

Class 4. Deck Equipment Operator, Machineryman/Fireman (4 Equipment Units or More); Off Road Trucks; Deck Hand, Tug Engineer, Crane Maintenance (50 Ton Capacity and Under) or Backhoe Weighing (115,000 pounds or less); Assistant Tug Operator.

Class 5. Friction or Lattice Boom Cranes.

Class 6. ROV Pilot, ROV Tender

SURVEY WORKER

Operates survey equipment (such as levels, transits, data collectors, GPS and robotic total stations) for the purpose of performing construction layout and/or grade checking.

SURVEY FOREMAN

Operates survey equipment (such as levels, transits, data collectors, GPS and robotic total stations) for the purpose of performing construction layout and/or grade checking; oversees survey crew operations; and/or coordinates work of survey crews.

TERRAZZO FINISHER

The handling of sand, cement, marble chips, and all other materials that may be used by the Mosaic Terrazzo Mechanic, and the mixing, grinding, grouting, cleaning and sealing of all Marble, Mosaic, and Terrazzo work, floors, base, stairs, and wainscoting by hand or machine, and in addition, assisting and aiding Marble, Masonic, and Terrazzo Mechanics.

TRAFFIC SAFETY Worker I

Traffic Safety Worker I - work associated with the delivery, installation, pick-up and servicing of safety devices during periods of roadway construction, including such work as set-up and maintenance of barricades, barrier wall reflectors, drums, cones, delineators, signs, crash attenuators, glare screen and other such items, and the layout and application or removal of conflicting and/or temporary roadway markings utilized to control traffic in construction zones, as well as flagging for these operations.

TRAFFIC SAFETY WORKER II

Work associated with the installation and removal of permanent pavement markings and/or pavement markers including both installations performed by hand and installations performed by truck.

TRUCK DRIVER - BUILDING, HEAVY AND HIGHWAY CONSTRUCTION - EAST & WEST

Class 1. Two or three Axle Trucks. A-frame Truck when used for transportation purposes; Air Compressors and Welding Machines, including those pulled by cars, pick-up trucks and tractors; Ambulances; Batch Gate Lockers; Batch Hopperman; Car and Truck Washers; Carry-alls; Fork Lifts and Hoisters; Helpers; Mechanics Helpers and Greasers; Oil Distributors 2-man operation; Pavement Breakers; Pole Trailer, up to 40 feet; Power Mower Tractors; Self-propelled Chip Spreader; Skipman; Slurry Trucks, 2-man operation; Slurry Truck Conveyor Operation, 2 or 3 man; Teamsters; Unskilled Dumpman; and Truck Drivers hauling warning lights, barricades, and portable toilets on the job site.

Class 2. Four axle trucks; Dump Crets and Adgetors under 7 yards; Dumpsters, Track Trucks, Euclids, Hug Bottom Dump Tumapulls or Turnatrailers when pulling other than self-loading equipment or similar equipment under 16 cubic yards; Mixer Trucks under 7 yards; Ready-mix Plant Hopper Operator, and Winch Trucks, 2 Axles.

Class 3. Five axle trucks; Dump Crets and Adgetors 7 yards and over; Dumpsters, Track Trucks, Euclids, Hug Bottom Dump Turnatrailers or turnapulls when pulling other than self-loading equipment or similar equipment over 16 cubic yards; Explosives and/or Fission Material Trucks; Mixer Trucks 7 yards or over; Mobile Cranes while in transit; Oil Distributors, 1-man operation; Pole Trailer, over 40 feet; Pole and Expandable Trailers hauling material over 50 feet long; Slurry trucks, 1-man operation; Winch

trucks, 3 axles or more; Mechanic--Truck Welder and Truck Painter.

Class 4. Six axle trucks; Dual-purpose vehicles, such as mounted crane trucks with hoist and accessories; Foreman; Master Mechanic; Self-loading equipment like P.B. and trucks with scoops on the front.

Other Classifications of Work:

For definitions of classifications not otherwise set out, the Department generally has on file such definitions which are available. If a task to be performed is not subject to one of the classifications of pay set out, the Department will upon being contacted state which neighboring county has such a classification and provide such rate, such rate being deemed to exist by reference in this document. If no neighboring county rate applies to the task, the Department shall undertake a special determination, such special determination being then deemed to have existed under this determination. If a project requires these, or any classification not listed, please contact IDOL at 217-782-1710 for wage rates or clarifications.

LANDSCAPING

Landscaping work falls under the existing classifications for laborer, operating engineer and truck driver. The work performed by landscape plantsman and landscape laborer is covered by the existing classification of laborer. The work performed by landscape operators (regardless of equipment used or its size) is covered by the classifications of operating engineer. The work performed by landscape truck drivers (regardless of size of truck driven) is covered by the classifications of truck driver.

MATERIAL TESTER & MATERIAL TESTER/INSPECTOR I AND II

Notwithstanding the difference in the classification title, the classification entitled "Material Tester I" involves the same job duties as the classification entitled "Material Tester/Inspector I". Likewise, the classification entitled "Material Tester II" involves the same job duties as the classification entitled "Material Tester/Inspector II".

RESOLUTION NO. R- -24

A RESOLUTION RESCINDING RESOLUTION NUMBER R-47-24, AUTHORIZING THE AWARD TO IHC CONSTRUCTION COMPANIES, LLC, AND REJECTING ALL BIDS FOR THE 2024 LEAD SERVICE REPLACEMENT PROJECT

WHEREAS, the corporate authorities of the Village of Forest Park ("Village") did advertise for bids for the 2024 Lead Service Replacement Project (the "Project"); and

WHEREAS, on May 17, 2024, at 10:00 a.m., bids were received virtually and publicly opened, read aloud via a Zoom meeting, and six (6) bids were received and reviewed by the Village and Christopher B. Burke Engineering, Ltd., Village Engineer; and

WHEREAS, on May 28, 2024, the corporate authorities of the Village adopted Resolution Number R-47-24, authorizing the award for the Project to IHC Construction Companies, LLC ("IHC"), as the apparent lowest responsible bidder; and

WHEREAS, subsequently, the Illinois Environmental Protection Agency ("IEPA"), which is funding the Project through a forgivable loan, discovered that IHC failed to follow IEPA advertising requirements and was rejected as a responsible bidder under IEPA loan guidelines; and

WHEREAS, as a result of IHC failing to qualify as a responsible bidder for the Village to qualify for the forgivable IEPA loan, it is in the best interests of the Village to rescind Resolution Number R-47-24 and re-evaluate the Project scope and timeline; and

WHEREAS, because rescinding the bid award to IHC will push the current and approved IEPA loan to the Village into the next IEPA fiscal year, the Village staff and Village Engineer now recommend and deem it advisable, necessary and in the public interest to evaluate the scope and specifications for the Project and reject all bids received for the Project.

NOW, THEREFORE, BE IT RESOLVED by the Council of the Village of Forest Park, Cook County, Illinois, as follows:

	Section 1.	The foregoing preamble clauses of this Resolution are incorporated by
refere	nce as though t	fully set forth herein.
	Section 2.	The Council of the Village does hereby rescind Resolution Number R-47-
24.		
	Section 3.	It is hereby determined that it is advisable, necessary and in the public
intere	st that the Villa	age reject all bids for the Project and return any bid bond that was submitted
with s	uch bids.	
	Section 4.	This Resolution shall be in full force and effect from and after its passage
and ap	oproval in the r	manner provided by law.
	PASSED by	the Council of the Village of Forest Park, Cook County, Illinois this 24 th day
of Jun	ne, 2024.

Vanes	ssa Belmonte, V	Village Clerk

June 14, 2024

Dear Mayor Hoskins,

The Park District of Forest Park is requesting the closure of Harrison Street for the safety and enjoyment of our residents for the Fourth of July fireworks display on Thursday, July 4, 2024. We are requesting the street be closed from Des Plaines Road to Circle Avenue beginning at 6:00 p.m. and reopening at 10:00 p.m.

We will also work with the Police Department along with a security company to have continuous safety for all patrons during this wonderful event.

Thank you for your past and continued support.

Sincerely,

Jackie Iovinelli Executive Director Park District of Forest Park
